

Daily Detoxification™

all natural Bowel Cleansing Support

60 - 500 mg Capsules per Bottle

Price: \$29.95

Toxicity in the GI tract is a major problem in today's society and it can be a contributing factor to disease. Toxicity is caused primarily by the accumulation of undigested food but prescription drugs, environmental pollutants, pesticides and parasites can add to the problem.

The Standard American Diet (SAD) is virtually devoid of enzymes and, without these powerful biochemical catalysts, complete digestion is impossible. So, unless you eat mostly raw organic food, you are most likely toxic.

- Cooked food is enzyme-dead... anything over 118° F destroys them.
- Irradiated food is enzyme-dead. And unless the produce you buy is 100% organic, it's probably been irradiated.
- Carbonated drinks, strenuous exercise, environmental factors and stress further deplete your enzyme stores and ability to make enough enzymes to support other bodily functions and cellular reproduction.

Daily Detoxification™ is both defensive and preventive. This mild herbal formula reduces toxicity that accumulates in the bowel and GI tract. It also supports the elimination of parasites as well as harmful GI bacteria and although not a laxative, it supports daily cleansing of the liver, intestines and colon.

Key Benefits:

- Assures a cleaner, more PH-balanced gastrointestinal system and bowel area.
- Reduces toxicity that accumulates in the bowel and GI tract.
- Supports the elimination of parasites as well as harmful GI bacteria.
- Supplies a complete herbal blend to support daily intestinal cleansing and elimination.
- Includes the most effective cleansing herbs available.
- Decreases the time between bowel eliminations and reduces the toxicity potential as well as constipation.

Proprietary Blend:

Turkey Rhubarb *
Psyllium Seed Powder *
Aloe Vera Powder *
Baraberry Root Powder *
Cascara Sagrada Powder *
Senna Pod Powder *
